## Notice of Surcharge Update

Dear Valued Customer,

Thank you for your continued support and for choosing Ocean Network Express (ONE) to cater to your needs.

Following the implementation of the **Europe Environment Surcharge (EES)** on January 1st, 2025, we are providing an update on the **quarterly tariff adjustment**. The EES was introduced to align with new and evolving environmental regulatory standards. For further details, please refer to [here](#).

Starting January 1, 2026, the **European Union Emissions Trading System (EU ETS)** enters its full compliance phase. The mandatory surrender of **European Union Allowances (EUAs)** expands from the current **70% (2025) to 100%** of verified emissions within the regulatory scope. This expansion means that emissions accounting will now include the potent greenhouse gases, **methane (CH<sub>4</sub>)** and **nitrous oxide (N<sub>2</sub>O)**. ONE remains fully compliant with, and strongly supportive of, the latest regulatory requirements aimed at reducing greenhouse gas (GHG) emissions and advancing a sustainable and environmentally responsible future. Read more about the **EU ETS** [here](#).

We are pleased to share the applicable EES tariff for the period from January 1, 2026 to March 31, 2026. As part of our ongoing commitment to regulatory compliance and transparency, EES tariffs are reviewed quarterly, subject to change with prior notice.

This surcharge continues to apply to all contracts. You can find the specific tariff details for this upcoming quarter below.

\* The EES surcharge will not be applicable to export cargo from China. Instead of a surcharge, the EES portion will be incorporated and considered as a part of freight.

We would like to take this opportunity to thank you for supporting ONE and look forward to continuously serving your global transportation needs.

Should you have any questions, please do not hesitate to contact your ONE representative.

Yours faithfully,

Ocean Network Express Pte. Ltd.
